

**A Message from
Dr. Bruce Boyles
Chairman, United Way Board of Directors
2011/2012**

The work we join together to do through United Way is always important to many in our community. That work is even more critical to our friends and neighbors during these tough economic times. Our United Way Board, staff and volunteers have made a concerted effort to ensure that the funds we commit are used in the best manner possible to provide help and assistance through our partner agencies. I believe our efforts are having a positive impact for many who are in need. I encourage those who can, to join with me, in making a difference this year.
