A COMMUNITY LITERACY PROJECT

## Inspiring Young Readers. Building Home Libraries. Changing Futures.

Since 2025, the My Home Library Project has been dedicated to promoting literacy and nurturing a lifelong love of reading throughout our community.

**Our mission is simple but powerful: to place books into children’s hands—books they can proudly call their own.**

With the support of our generous sponsors and dedicated volunteers, we’ve visited every elementary school in the county, delivering books directly to students and sharing the joy of reading face to face.

To date, we’ve distributed **33,690 books** to **5,602 students**, filling homes with stories and sparking imaginations beyond the classroom.

The impact reaches far beyond school walls—families are reading together, confidence is growing, and children are discovering the magic of books in their everyday lives.

### And we’re just getting started.

With your support, we will continue to expand our reach, grow home libraries, and equip even more children with the stories, skills, and confidence they need to become lifelong readers.

### The journey has only just begun.

A COMMUNITY LITERACY PROJECT

## Give the Gift of a Home Library

One Book. One Child. A Lifetime of Possibility.

In communities across our region, thousands of children are growing up without books in their homes.

**But together, we can change that—one story at a time.**

By supporting this program, you're not just donating books—you're opening doors. You're igniting imaginations, strengthening literacy, and helping build a future where every child has the chance to dream big.

**Your donation creates real change.**

Join us in expanding this mission even further.

Whether you fund one book or one thousand, your generosity fuels a movement that's rewriting the narrative for children who deserve more.
